ACRYLIC RESTORAL KITS

Micro-Surface Finishing Products, Inc. - FAA Repair Station #KY2R969K, has been a leader in acrylic restoral for the past 30 years. The following kits were developed for use with standard power tools. Micro-Mesh™ is approved by Boeing/McDonnell Douglas, the Military and FAA. All kits come with easy to read instructions. Designed to save you both money and time, these kits will restore acrylic back to optical clarity using a minimum of steps. Re-order individual components as you need them. Let our Sales Department assist you in selecting the proper kit.
