

## Leather Guard

Fine Leather  
Cleaner/Finisher  
& Conditioner

Nuvite Leather Guard helps you keep that brand-new, supple, fine finished leather look and feel for luxury aircraft, RV or automotive seating, fine furniture or institutional use. Leather Guard is the finest enriching formula available for leather nutrition .

Cleaning, by necessity, removes oils that have to be replaced to maintain the surface and feel of the leather. Leather Guard lightly cleans while restoring these essential natural oils and conditions the surface after cleaning. Can be used to enhance appearance of all types of faux leather surfaces as well. Leaves premium leather look and feel (not shiny), and does not leave a slippery, glossy surface. Supplied ready to use (cream).

## Leather Guard

- Cleans and restores leather to a soft, supple, finished leather look and feel
- Will recondition dry, stiff leather
- Does not leave a slick, shiny or tacky surface
- Extreme economy of use
- Safe and easy to use
- Can be used to clean and condition faux leather materials
- Gentle, effective cleaning and leaves a rich, fresh leather aroma
- Completely biodegradable
- Non-flammable and non-corrosive to all metals
- Protects surface from spotting

# Leather Guard

Fine Leather  
Cleaner/Finisher  
& Conditioner

## Specifications:

Appearance:	- tan, viscous liquid
Flash Point	- none

pH	- 8.7 to 9.2 @ 25 degrees C
Solubility:	- dispersible
Specific Gravity:	- .96 @ 25 degrees C

## Availability:

Pint, Quart, 1 & 5 Gallon or 55 Gallon Drums

## PRECAUTIONS:

Because LEATHER-GUARD is an emulsion, it is sensitive to extreme heat and freezing conditions. Avoid freezing. Store indoors. In addition, do not return any spent or unused material back into original container. Avoid eye contact. When not in use, keep container tightly closed.

## Health and Safety:

Nuvite Leather Guard does not contain toxic or extremely hazardous ingredients, and is not environmentally restricted. Users should follow good safety procedures, including wearing of gloves and goggles along with other standard safety procedures. Refer to Leather Guard Material Safety Data Sheet for further information.

## Directions For Use:

**Directions:** For heavily soiled leather, pre clean with Nuvite C-49 used at normal dilution of 1:12 with water. When dry, pour small amount of Leather Guard onto smooth cotton rag (T-shirt material -terry towels may cause streaking) folded into quarters. Apply uniformly over surface, spreading & working into surface as the area is covered. After allowing a short time for drying, use a dry, clean cotton towel to polish leather surface to a soft luster. Leather Guard replaces critical lost oils due to cleaning, and will help leather to resist cracking from over drying. Always use good ventilation, with eye and skin protection, especially when working beneath surfaces being cleaned. Refer to MSDS for health & safety information. Contact Nuvite representatives for further information and assistance.

*When using Nuvite materials, please refer to the appropriate procedures and recommendations for use and equipment, or consult with your Nuvite representatives.*
