

## IK Multi Pro 2 Sprayer Technical Datasheet

---

### Product Description

The IK MULTI Pro 2 sprayer is well known by its maximum performance in terms of ergonomics, ease of use and safety.

It offers a professional spraying solution to achieve optimum results in a wide range of sectors such as construction, cleaning and disinfection, virus, pest and epidemic control, automotive, industry and air conditioning (HVAC). IK MULTI Pro 2 is designed for maximum strength and versatility with the most aggressive chemicals. This sprayer is particularly resistant to acids. The IK MULTI Pro 2 sprayer has been designed to make the professional's work easier, thanks to improved safety features at key points of the sprayer. The seals and materials of IK Multi Pro 2 are particularly resistant to most acids, solvents and disinfectants.

It has a wide filling mouth, ergonomic design, safety valve set at 2.5 bar (depressurizable), base for greater stability, coloured caps to identify the contents of the tank, safety lock on the opening and closing system and two spray nozzles (adjustable cone and fan). Its translucent 2-litre tank allows to check the level of liquid inside. The Multi Pro family is the result of the knowledge gained from years of experience in the design and manufacture of professional sprayers, combining the most innovative features in the fields of safety, ergonomics and functionality.
