

Nuvite Chemical PowerPax Technical Datasheet

Product Description

Sold in a container with 25 packs.

Drop in DRY lavatory deodorant packets.

Most convenient way to refresh on-board toilets. Each tiny, concentrated single use packet, instantly dissolves to a cool, dark blue while releasing essential oils. Suitable for re-circulating and vacuum flush toilet systems.

Core benefits:

Uses essential oils to deliver superior Odor control. Lower onboard storage requirement and lower weight. Suitable for re-circulating or vacuum toilet systems. Easy to use. No Spillages. No Staining. 3 times larger than the leading competitor. 4 times longer lasting than the leading competitor.

Directions for use:

1. Identify the volume (gallon or litres) of lavatory tank. 2. Drop in two Power Pax packets per 20 litres (five gallon) lavatory tank. 3. Essential oils deliver SUPERIOR odor control.

Available in pack of 25 sachets.

PLEASE NOTE, 2 – 4 WEEK LEAD TIME ON BACKORDERS

Product Description.

Drop in DRY lavatory deodorant packets. Most convenient way to refresh on-board toilets. Each tiny, concentrated packet instantly dissolves to a cool, dark blue while releasing essential oils.

Core Benefits.

- Uses essential oils to deliver superior Odor control.
- Lower onboard storage requirement and lower weight.
- 3 times bigger than the leading competitor.
- 4 times longer lasting than the leading competitor.
- Easy to use.
- No Spillages.
- No Staining.

Directions for use.

1. Identify volume of the lavatory tank.
 2. Drop in two Power Pax packets for every 20 liters / 5 gallons lavatory tank volume.
- For older recirculating systems, add one or two bags into each toilet and then flush.
For vacuum based systems, add the required number of bags into one toilet and then flush.

Safety & storage.

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature. To avoid the risk of using out of date product, ensure that batch numbers are recorded and stock is clearly labelled and rotated. Keep in a dry place.
