Technical Datasheet

Product Description

Cyclo ProGuard Backing Plates

Note: These are ONLY compatible with the Cyclo 6 CE machine.

Commodity Code: 8467295900

SKU: FA-79-112-24

Product Description
Cyclo ProGuard Backing Plates. Cyclo Toolmakes' ProGuard Orbital Backing Plate has a unique proprietary design providing a low profile for improved control and a non-marking edge bumper for safest operation. The advanced design enables rapid pad centering by fingertip touch, and is perfect for quick and easy pad changes. The newly redesigned in 2013 proguard orbital backing plate now features permanently adhered high quality dense hook material (the same material used for decades on Cyclo's rubber pad holders). This provides an excellent mating hook and a full face area of hook material. The color of the plate is white to identify this as the latest, new and improved version.
Note: These are ONLY compatible with the Cyclo 6 CE machine.

Core Benefits
Designed for Cyclo polishers with a hook face to attached to loop-backed pads; quick and easy pad changes. Also attaches to the Cyclo 600 grit Fast Cut Pad
Perfectly balanced on machines with blue VES weights (vibration elimination system is standard on all Cyclo polisher/scrubbers)
5/16-24 inch male thread
Low profile gets pads into tight quarters
