Aero Cosmetics WashWax All Concentrate (8oz)
Technical Datasheet

Product Description

Wash Wax All CONCENTRATE (8oz / 227ml) is a versatile cleaner is a biodegradable one-step cleaner and wax which also protects against UV deterioration. It's also suitable for interior use, meaning that you can clean and protect your entire aircraft (inside and out) with a single product, eliminating the need to stock and carry a plethora of chemicals for similar applications.

Simply spray on and wipe dry for an anti-static, non-stick, UV protective coating on all surfaces such as paint, glass, plastic, leather, vinyl, rubber, wood, gel coat, aluminium, granite and other hard surfaces.

Works well with the 'Aero Scrubber' and/or terry towels for exterior applications and microfibre cloths for interior applications.

Directions for use

Spray an area you can comfortably clean before the Wash Wax ALL dries Take the damp towel and wipe the area you just sprayed with Wash Wax ALL. (If the aircraft is not very dirty, you can skip this step.) Dry the area with a dry towel before the Wash Wax ALL dries Continue using steps 3 through 5 for the rest of the aircraft, unfolding and re-folding the towels to expose new clean sides. Work your way down to the lower portions of the aircraft. We recommend cleaning the windows last. The process is the same throughout the entire aircraft; spray on and wipe off. Replace the towels as needed when they become dirty. For hard to reach areas, we recommend using the Wash Wax Mop
Commodity Code: 3402509000

SKU: FA-777C-8OZ

Approvals:

- Boeing D6-17487P (Exteriors)
- Boeing D6-7127M (interiors)
- Douglas CSD #1
- AIMS 09-00-002
- Bombardier TASK 12?21?00?110?807
- Dassault Falcon

Features

- Cleans and waxes in a single pass.
- Suitable for exterior and interior use.
- Cleans paint, glass, plexi-glass, plastic, leather, vinyl, rubber, wood, gel coat, metals, and other hard surfaces.
- Protects against UV deterioration.
- Water-based – free from alcohol and ammonia.
- Can be used as a 'waterless wash' or 'wax as you dry'
- Biodegradable – safe for users and the environment
- Non-flammable and non-corrosive to all metals
- Hard water stable, cold water efficient
- Also supplied in concentrated form.
