AeroFab
Technical Datasheet

Product Description

AeroFab is an effective, concentrated enzymatic preparation for breaking down protein-based deposits at source, thereby removing organic stains and reducing associated unpleasant malodors. The product can be used neat as a pre-spotter and diluted 1:10 for general stain removal and soft fabric cleaning. AeroFab combines biodegradable surfactants for effective cleaning and is suitable for use on most surfaces. It is effective for use on protein based spills such as urine, vomit, faeces, sweat, grass and food spills such as milk, wine, gravy, egg etc.

AeroFab is supplied in concentrated format and should be applied neat over the affected area for pre-spotting and diluted 1:10 for general cleaning of soft furnishing and carpets etc. Use a microfiber cloth to agitate gently and help lift the stain. No need to rinse surfaces following application. Test for colour fastness on a small area first. Application areas: Curtains, seats, cushions, rugs, carpets etc.

AeroFab is readily biodegradable and non-flammable. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents. In addition, the enzymes are biodegradable and friendly to the environment.

Commodity Code: 3402909000

SKU: FA-BH405-5LTR

Product Description.
AeroFab is an effective, concentrated enzymatic preparation for breaking down protein-based deposits at source, thereby removing organic stains and reducing associated unpleasant malodors.
The product can be used neat as a pre-spotter and diluted 1:10 for general stain removal and soft fabric cleaning. AeroFab combines biodegradable surfactants for effective cleaning and is suitable for use on most surfaces. It is effective for use on protein based spills such as urine, vomit, faeces, sweat, grass and food spills such as milk, wine, gravy, egg etc

Core Benefits.
AeroFab is readily biodegradable and non-flammable. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents. Inaddition, the enzymes are biodegradable and friendly to the environment

Directions for use.
AeroFab is supplied in concentrated format and should be applied neat over the affected area for pre-spotting and diluted 1:10 for general cleaning of soft furnishing and carpets etc. Use a microfiber cloth to agitate gently and help lift the stain. No need to rinse surfaces following application. Test for colour fastness on a small area first.
Application areas: Curtains, seats, cushions, rugs, carpets etc
