Aero Cosmetics Wash All Degreaser Ready For Use (16Oz)
Technical Datasheet

Product Description

Removes grease, oil, hydraulic fluid and carbon stains on areas such as landing gear and bellies. It's fully biodegradable and safe to users and the environment. Simply spray on and wipe dry – works well with the 'Aero Scrubber', terry towels or microfibre cloths.

Directions for use.

Spray an area you can comfortably clean before the Wash All dries Take the damp towel and wipe the area you just sprayed with Wash All. (If the aircraft is not very dirty, you can skip this step.) Dry the area with a dry towel before the Wash All dries Continue using steps 3 through 5 for the rest of the aircraft, unfolding and re-folding the towels to expose new clean sides. Work your way down to the lower portions of the aircraft. We recommend cleaning the windows last. The process is the same throughout the entire aircraft; spray on and wipe off. Replace the towels as needed when they become dirty. For hard to reach areas, we recommend using the Wash Wax Mop For areas of the aircraft that have dried on bugs, we recommend you pre-spray the area with Wash Wax ALL (Blue) and let it soak for 10-15 minutes. After it has soaked in, re-spray the area and use the Aero Scrubber to break up the bugs. Then, use a towel to dry and clean the area before the Wash Wax ALL dries.
Additional pack sizes are available, please contact us for more information. This item is 16 Oz / 473ml.

Commodity Code: 3402509000

SKU: FA-787P-16OZ

Approvals:

Approvals:

- Boeing D6-17487P (Exteriors),
- Douglas CSD #1
- AIMS 09-00-002
- Bombardier TASK 12?21?00?110?807

Features

- Removes tough dirt and stains with a single application.
- Cleans paint, glass, plexi-glass, plastic, leather, vinyl, rubber, wood, gel coat, metals, and other hard surfaces.
- Water-based – free from alcohol and ammonia.
- No need to rinse (i.e. 'waterless')
- Biodegradable – safe for users and the environment
- Non-flammable and non-corrosive to all metals
