Nuvite Applicator Head
Technical Datasheet

Product Description

9? Hook and Loop Head. Applicator head for use with our scrub pads. Attaches to all extendable poles for easy reach.

Twin friction swivels allow the applicator head to easily follow the contours of your surfaces. Ready for standard 7/8” threaded handle, (- either wood or telescoping aluminium) and incorporates permanent hook & loop hooks to securely hold either spun fibre applicator pads above or hook & loop-style string mop pads. Makes changing to clean pads “on the fly” easy! 9” X 3 5/8” wide, durable, non-corroding plastic construction.

NOTE. After extensive use, the applicator swivel joint may become worn allowing the head to flop around without any stifness. To solve this problem, we have a low cost quick fix which can be downloaded HERE.

Price for single unit.

Commodity Code: 9603900000

SKU: FA-EQ-122

Product Description
Scrub pads for external aircraft cleaning using NuPower II. Scrub pad for use when dry washing aircraft fuselage. Attaches to all extendable poles for easy reach. Ideally suited for use with Nuvite NuPower II. For any of Nuvite’s wetwashes, degreasers or drywash/polish, this is the perfect application tool! This white, spun-fiber pad is non-abrasive (on aircraft), and works great for applying soap solutions or polish material onto surface economically and easily. Provides the “just right” agitation needed to loosen normal surface dirt, grease and oils, but will not damage paint, glass, acrylic or metal surfaces. Fits on Nuvite EQ-122 9” hook and loop attachment swivel head.
