Section 4: First-Aid Measures

Description of first aid measures

Inhalation

- If overcome by vapor, remove from exposure and call a physician immediately. If breathing is irregular or stopped, start resuscitation.

Skin

- Wash with soap and water. Remove contaminated clothing. Wash before using.

Eye

- IF IN EYES: Wash with cool water for at least 15 minutes. Lift lids. Do not rub. Get medical attention immediately.

Ingestion

- Do NOT induce vomiting. Dilute by drinking milk or water. Get medical attention immediately.

Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media ● Water spray, water fog

Unsuitable Extinguishing Media ● Avoid the use of streaming water, as this may spread the fire.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards ● Closed containers in primary fire may explode. Non-combustible.

Hazardous Combustion Products
Advice for firefighters

- None
- Structural firefighters' protective clothing will only provide limited protection. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). Move containers from fire area if you can do it without risk. Use water spray to cool containers exposed to fire.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions

- Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material.

Emergency Procedures

- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Keep out of low areas. Keep unauthorized personnel away. Ventilate closed spaces before entering.

Environmental precautions

- Avoid run off to waterways and sewers.

Methods and material for containment and cleaning up

Containment/Clean-up Measures

- Small spills may be flushed with plenty of water down sewage drain. Large spills should be absorbed with absorbents (fuller earth type) and placed in containers for disposal.

Section 7: Handling and Storage

Precautions for safe handling

Handling

- Avoid damage to container in handling.

Conditions for safe storage, including any incompatibilities

Storage

- Store at room temperature. Keep from freezing.

Incompatible Materials or Ignition Sources

- Keep away from heat, ignition sources oxidizers and strong acids.
-
