Partnership. Process. Performance.
We're with you through the finish.

American 
Fiber & Finishing

When Clean Is Critical

Certified: AMS 3819 (Class 1, Grade A, Form 1), BMS 15-5 (Class 1, Grade A), and all other Aerospace standards

Reliable: Non-abrasive, low lint, no residual contaminants

Versatile: Compatible with all solvents; effective across numerous applications

Convenient: Available in a variety of put-ups and sizes, pre-cut and customized

Rymplecloth® Wiping Cloths

Some of the most complex and regulated industries – aerospace, automotive, marine, food, pharmaceuticals and others requiring high standards of precision cleaning – trust Rymplecloth® wipers for maximum absorption and durability.

Rymplecloth® takes on a range of critical cleaning challenges, ridding smooth and curved surfaces of dirt, dust, carbon, greases, hydraulic and metalworking fluids, oils, paint and metal shavings, waxes and other debris.

#1 in Aerospace

Rymplecloth® is the number one product of choice in aerospace industry paint prep departments, and industry leader Boeing's wiping product of choice for over 50 years running.

The Difference is in the Details

Rymplecloth® 100% cotton wipers are scoured, giving them their signature off-white color. But what really sets them apart is function: A unique crimped finish and firmly twisted fibers create a surface that is unmatched for absorbing and trapping particles.

Once the job is done, Rymplecloth® leaves no contaminants and virtually no lint behind – just a clean, polished surface, primed for optimal performance.

Rymplecloth® Wiping Cloth

The Rymplecloth® Leadership Platform

With over 100 years of manufacturing experience, American Fiber & Finishing is the leading provider of light- to medium-weight woven industrial fabrics. Rymplecloth® is our flagship product, and it reflects the three core commitments to which we owe our industry standing:

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

Meeting and Exceeding Industry Standards

- AMS 3819 (Class 1, Grade A, Form 1), BMS 15-5 (Class 1, Grade A), and all other Aerospace standards
- Sold by American Fiber & Finishing under an AS9120 certification

Protecting the Environment

Rymplecloth® wiping cloths are:

- 100% cotton
- Purified or scoured
- Biodegradable
- Silicone-free
- Chlorine-free

PUT-UPS

10" wide wipers of various lengths of 14-25", 3-ply

- **Rolls:** 100-150 pieces per roll, each roll with a cardboard core for easy use on a rack, 12, 16 or 24 rolls per case
- **Handipad™:** Rolls with hand openings to enable operator to carry on forearm for portability, 15-30 pieces per pad, 40-80 rolls per case
- **Tri-Fold:** Tri-folded from the vertical with edges folded in

E-CUT, HANDIFOLD, DOUBLE FOLD, AND SMALL PACKAGE

Product Specifications:

- 100% Woven Cotton, Open Weave
- Whitened with Chlorine-free Bleach (Peroxide)
- 4 plied to 9 inches wide
- Low Lint (< 10mg per sf)
- Static Free
- Silicone Free
- Highly Absorbent

Grades:

- Grade 10 (20×10)
- Grade 20 (20×12)
- Grade 40 (24×20)
- Grade 50 (28×24)
- Grade 60 (32×28)
- Grade 90 (44×36)

Aerospace Certifications:

- AMS 3819 Class 1, Grade A, Form 1
- BMS 15-5 Class A
- All other Aerospace Standards

PUT-UPS

- Rolls:
 - cut lengths 15"-24"
 - 128-240 pieces/roll
 - 8-10 rolls/case
- Handifold™ Bolts: 60-100 yards/bolt, 10 bolts/case
- Small Package: 1-10 yards/package
- Private label available
- Special put-ups available

Purewipe[®] Sponges/Pads

PUREWIPE[®] INDUSTRIAL USE SPONGES AND PADS

Product Specifications:

- 100% Woven Cotton, Open Weave
- Whitened with Chlorine-free Bleach (Peroxide)
- Finished edges
- Compatible with all Solvents
- Low Lint (< 10mg per sf)
- Static Free
- Silicone Free
- Highly Absorbent

Aerospace Certifications:

- AMS 3819 Class 1, Grade A, Form 1
- BMS 15-5 Class A
- All other Aerospace Standards

PUT-UPS

- 4"x4" sponges and pads:
 - Available in crimped or flat gauze
 - 8, 12, 16 ply
 - Packaged in paper or plastic
 - 100-200 per sleeve, 6-20 sleeves per case
- 9"x9" Pads
 - Regular weight and heavy weight
 - 16 ply
 - Packed in bulk, banded, or bagged 600-700/case
- Sewn Pads
 - Various sizes and plys available
 - No raw edges
 - Available in plain or textured to trap and remove particles

Purewipe® **Non-woven Wipers** **V-100**

Part Number 9921126

PUREWIPE® NON-WOVEN WIPERS

Product Specifications:

- Non-woven Products
 - Made from 100% or blended viscose, polyester, wood pulp, nylon, polypropylene
 - Low Lint (<10mg per sf)
- Silicone Free
- Highly Absorbent
- Compatible with all Solvents

Aerospace Certifications:

- AMS 3819 Class 2, Grade A, Form 1
- All other Aerospace Standards

PUT-UPS

- Continuous rolls with perforated sheets for easy tear-off
- Flat stack bulk, folded in box or bag
- Small rolls for re-sale to pre-sat wipes manufacturers
- Quarter-fold put-up in stacks or in dispenser boxes or bags

Chemical Cloth

The Right Choice for
Aerospace. The Right
Choice for You.

Product Names: C-60™, C-60™P,
C-60™BP

Aerospace Certified: D-1816, BAC5845,
BAC5322, BAC5639, BAC5710,
BAC5736, BAC5793, BAC5797,
BAC5837, BAC5882, BAC5896,
BAC5755, BAC5000

Reliable: Non-abrasive, low lint, no
residual contaminants

Convenient: Available in a variety of put-
ups and sizes, pre-cut and customized

Chemical Cloth Tack Cloth – Solvent Based

Life can be full of decisions and it's often hard to make an informed choice. At AF&F, we've made it easy for you to select the best chemical tack cloth for your most demanding jobs. Simply choose the one that has continually met the stringent requirements of the Aerospace industry: AF&F Chemical Cloth. For more than 50 years, our tack cloths have been the premium "go to" products in the marketplace!

More Effective = More Efficient

AF&F Chemical Cloth Tack Cloths are as efficient as they are effective – because they're longer lasting, leave no residue, and do the job right the first time.

Excellence is Woven In

When a clean, contaminant-free surface is a must, our AMS/BMS certified base material, including high-quality fabrics and proprietary tack materials, are widely acknowledged to be the best choice on the market. It all starts with biodegradable, low lint cotton or polyester gauze, incorporates our unique tack formulations and curing process and ends, as it should, with a perfect finish for your most critical applications.

Chemical Cloth

Chemical Cloth Tack Cloth – Solvent Based

Leading from the Front

American Fiber & Finishing is America's leading manufacturer and provider of light- to medium-weight woven industrial fabrics – and has been for more than a century. Our Chemical Tack Cloth has itself been one of our industry's premier products for more than 50 years!

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

Good to Know Facts:

- Base Fabric Material (AMS/BMS Certified) is 100% low lint cotton or polyester. It all comes down to this. People have used the term lint free and in fact it is difficult if not impossible to have a totally lint free item made from fiber.
- Silicone free
- Can be private labelled for re-sellers
- Traceability at the case level
- COC or COA for base material
- Aerospace grade

The Right Choice for Aerospace. The Right Choice for You.

Product Name: G99™

Aerospace Certified: D6-1816, BAC5845

Base Fabric Material: (AMS/BMS Certified): 100% low lint biodegradable cotton

Tack formula: 100% Latex/Water-based; no special disposal needed

Special polymer available in varying levels of tack formulations

Available in white

Available in pieces of 18"x 36", 150-yard continuous rolls, and other Put-ups

Greider Tack Cloth™ – Latex/Water-based

No clean up jobs are more critical than those in the aerospace industry. And for the past 50 plus years, no product has helped this industry clean up better than AF&F latex/water-based Greider Tack Cloth™. These tack cloths provide the soft, oversized and pliable performance that is delicate enough to pick up the finest dust and lint – and tough enough to last.

Engineered for the Perfect Finish

Starting with superior quality, highly absorbent certified cotton gauze or very low lint polyester cloth, we add our proprietary tack formulations to create Greider latex/water-based Tack Cloth – to stand up to your most crucial wiping applications. Our goal is the same as yours – a perfect finish every time. We've aimed at meeting this goal for nearly half a century: AF&F Greider Tack Cloth™ is perhaps the most highly-regarded product of its type available today.

Efficiency without Compromise

You want the best performance but you also want the best value and AF&F Greider Tack Cloths™ provide both in abundance. The deliver superior yet long-lasting performance from start to finish!

Greider Tack Cloth™ – Latex/Water-based

A Century of Leadership

Greider latex/water-based Tack Cloths come to you from AF&F, a company with more than 100 years' experience as a leader in providing light-to medium-weight industrial woven fabrics. Every product we make is made with one goal in mind – a job well done.

Listening to Customers

When it comes to the challenges of critical cleaning, no one knows better than the people who meet them head-on every day. Our product development teams work closely with customers to ensure that our products enhance efficiency and performance, while making the job easier.

The more you know, the better we look:

- Silicone free
- Individually packaged or bulk packed
- Can be private-labelled for re-sellers
- Traceability at the case level
- COC or COA for base material
- Available in various cut lengths and put-ups
- Aerospace grade
- Available worldwide

Purewipe[®] **Cotton Swabs**

PUREWIPE[®] INDUSTRIAL COTTON SWABS

Product Specifications:

- 100% USP-compliant Cotton
- Whitened with Chlorine-free Bleach (Peroxide)
- Sturdy 4" or 6" Wooden (Bamboo) Handle for Flexibility
- 3-6" Polypropylene Sticks with foam Heads
- Low Lint (<10mg per sf)
- Silicone Free
- Highly Absorbent
- No Surface Residuals
- Compatible with all Solvents
- Applications: cleaning delicate parts, removing debris in tight and hard to reach areas.

Aerospace Certifications:

- AMS 3819C Class 1, Grade A, Form 1
- BMS 15-5G Class 1
- All other Aerospace Standards
