The NUVITE team stands ready to support you and your customers with...

- A full line of high quality, top performing, task-oriented products
- Complete appearance maintenance systems
- Samples of NUVITE Products as needed
- Tried & true processes to assure best possible results
- Support materials & literature
- Expert, technical assistance & friendly customer service

NUVITE Chemical Compounds specializes in complete polishing systems.

Tell us more about your application. We'll put together a set of qualified consumables to meet your needs, or have our technical team develop a customized polishing system unique to your specifications.

When you think appearance maintenance, think NUVITE. Thank you.
