

## ELIMINATE

LAVATORY CLEANING CONCENTRATE

**Product Name:** Eliminate

**Part Number:**

- Frasers –
- Nuvite PC2195

**Manufacturer:** Nuvite (Universal Photonics)

**HS Commodity Code:** 34022011

### Product Description.

Eliminate is a technology-based aircraft lavatory care and ongoing maintenance system. Eliminate's toilet additive is specifically designed to break up and disperse all hard to remove residues, mineral scale, and waste by-products. It is formulated to be safe to equipment while dislodging and breaking down lavatory sludge within the system.

### Core Benefits.

- Exceptional dispersing and cleaning performance
- Safe to internal pumps, airport tritcherator and municipal standards
- Conforms to airframe OEM standards and specifications

### Directions for use.

Empty lavatory holding tank and add Eliminate. Allow to soak during routine overnight service. Flush all toilet compartments several times during process to ensure that pumps and flush rings are saturated. Use Eliminate full strength or up to 1:5 dilution, depending on sludge conditions with a steam cleaning method or overnight soak.

After use of Eliminate, add Goodbye NF lavatory deodorant for bluing and odour control.

**Safety & storage.**

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.
